REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance:

Claims 10-14, 16 are allowed.

The 112 second paragraph rejection is withdrawn because the amendment has obviated the rejection.

The 112 first paragraph rejection is withdrawn in view of the amendment incorporating the limitation of HCl as recited in claim 15. The claims as amended are now commensurate in scope with that of the objective enablement.

Baccichetti (4312883) discloses the process of making the hydrochloride of 4'-(aminomethyl)-4, 5'-dimethylangelicin by reacting phthalimidemethyl-dimethylangelicin and hydrazine hydrate, followed by addition of HCl in solution (column 19, line 45 to column 20, line 9). Baccichetti's process requires several evaporation steps. In the instant process, HCl gas is introduced to the organic layer containing the 4'-(aminomethyl)-4, 5'-dimethylangelicin. The instant process has less drying steps and leads to higher yield with less solvent use and shorter working time (page 6 of the specification). The instant is therefore unobvious over the process of Baccichetti.

2. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Evelyn Huang whose telephone number is 571-272-0686. The examiner can normally be reached on Tuesday-Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cecilia Tsang can be reached on 571-272-0562. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.
